## DETAILED ACTION

The indicated allowability of claim 4 is withdrawn in view of the newly discovered reference(s) to Jensen, U.S. 6,258,139. Rejections based on the newly cited reference(s) follow.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Jensen, U.S. 6,258,139.

Jensen discloses a tungsten carbide substrate (201; col. 5, lines 33-39) having a ring defining a recess (206) and a shelf (at 205) about the periphery of the substrate. Jensen discloses abrasive material (204, 203) in the recess providing a primary cutting edge (col. 6, lines 7-15) and a separate protective diamond layer (202, 207) suitable for a first substance (col. 5).
